### **Klickitat County Reports COVID-19 Death**

*Klickitat County Health Department is currently investigating close contacts and possible transmissions*

**Goldendale, WA, March 11, 2021** – The Klickitat County Health Department (KCHD) confirmed the death of a community member on March 11, 2021. The individual was 80 years old and had tested positive for COVID-19. They were transported to a hospital where they passed on March 9, 2021. This person did have underlying health issues that affected their health in addition to having COVID-19. Klickitat County has had a total of 743 COVID-19 cases to date and 9 deaths.

Currently, KCHD is investigating any and all close contacts or possible exposures related to this individual. At this time, it appears that the case was related to community transmission.

“Klickitat County Health Department is actively looking into all of the close contacts and has contacted anyone that was potentially exposed. In the meantime, it’s important that we continue to wear face coverings when in public and stay home when we feel sick,” states Erinn Quinn, Director for Klickitat County Public Health.

You can help slow the spread of COVID-19 by wearing a face mask that covers your nose and mouth when you are in public, washing your hands, and staying home when you are sick. It is also highly recommended that the public avoid large gatherings and events even if they are hosted outside.

If you are currently experiencing any COVID-19 symptoms, please contact your primary care provider about getting tested. COVID-19 symptoms can be different for everyone but generally include some of the following: fever, chills, headache, muscle aches or pains, sore throat, sinus congestion, dry or productive cough, shortness of breath, nausea, vomiting, diarrhea, abdominal pain or cramps, loss of smell or taste, and fatigue. Anyone with symptoms can be tested in Klickitat County by calling to make an appointment at Klickitat Valley Health, Skyline Health, or Northshore Medical Group.

#### **About Klickitat County Public Health**

Klickitat County Public Health is always working for a safer and healthier community. As the region’s public health leader and partner, we are committed to excellence through innovative programs, community partnerships and a fundamental dedication to promote and protect the health of all Klickitat County residents.
