**NEW COOLING SHELTER LOCATIONS & HOT WEATHER SAFETY  
INFORMATION**

**Goldendale, WA, June 28, 2021** - With excessive heat in the forecast, Klickitat County Health Department wants to remind residents, especially those participating in outdoor activities over the next week, to take precautions against heat. Severe heat may cause illness or even death. When temperatures rise to extreme highs, reduce risks by taking the following precautions.

Hot Weather Precautions:

- Drink plenty of fluids but avoid beverages that contain alcohol, caffeine or a lot of sugar.
- Eat more frequently but make sure meals are balanced and light.
- Never leave any person or pet in a parked vehicle and ensure pets have plenty of water.

If you go outside:

- Take frequent breaks when working outdoors.
- Wear a wide-brimmed hat, sun block and light-colored, loose-fitting clothes.
- At first signs of heat illness (dizziness, nausea, headaches, muscle cramps), move to a cooler location, rest for a few minutes and slowly drink a cool beverage. Seek medical attention immediately if you do not feel better.
- Avoid sunburn: it slows the skin's ability to cool itself. Use a sunscreen lotion with a high SPF (sun protection factor) rating.

If the power or air conditioning is not available:

- If air conditioning is not available, stay on the lowest floor and out of the sunshine.
- Ask your doctor about any prescription medicine you keep refrigerated. (If the power goes out, most medicine will be fine to leave in a closed refrigerator for at least 3 hours.)
- Keep a few bottles of water in your freezer; if the power goes out, move them to your refrigerator and keep the doors shut.
