Re: Energy Overlay "EOZ" Application
Windy Flats West Wind Farm Project – EOZ2010-01

Dear Mr. Humphrey:

The Klickitat County Planning Department is in receipt of the EOZ application for the 29 turbine Windy Flats West Wind Project.

The proposed turbine corridors and the road layout are comparable to the western portion of the previously approved Windy Flats Wind Project. The application includes additional field surveys and technical reports to supplement the prior environmental review.

Per the authority granted to me under the EOZ ordinance I hereby approve, for the purpose of determining application completeness, deferral of the submission of a stormwater management plan. Furthermore, I deem the application as complete - however, please note that during the permit review process, it is typical for the County Planning Department to request additional information and clarification.

Sincerely,

A handwritten signature in black ink that reads "Curt Dreyer".

Curt Dreyer
Planning Director
