Dear Interested Persons:

RE: Notice of Availability of the Final Environmental Impact Statement – Harvest Wind Wind Project

The Applicants Public Utility District No. 1 of Cowlitz County, Washington, Eugene Water and Electric Board, Lakeview Green Energy, Inc., and Peninsula Light Company propose to construct and operate the Harvest Wind Wind Project (Project) in unincorporated Klickitat County, approximately 21 miles due east of Goldendale and approximately 4 miles northwest of Roosevelt, Washington. The entire Project area lies within the Klickitat County Energy Overlay Zone (EOZ). The Project would have a total generating capacity of 100 megawatts.

A draft Environmental Impact Statement (EIS) was issued on January 22, 2009 for a 30-day comment period. The public comment period on the draft EIS began on January 22, 2009 and ended on February 24, 2009. Klickitat County Planning Department has now issued the Final EIS, which reflects departmental consideration of comments received on the draft EIS. This document, along with the DEIS issued on January 22, 2009, constitute the Final Environmental Impact Statement (FEIS) for the Harvest Wind Project. The purpose of the final EIS is to identify key, adverse, environmental issues that may result from the proposed Project. The focus of the final EIS is to analyze the issues as they pertain to the proposal and to respond to comments received.

The Department appreciates the contributions made by the reviewers of this EIS. If you would like a copy of the final EIS, please contact the Planning Department at (509) 773-5703 or electronically at [planning@co.klickitat.wa.us](mailto:planning@co.klickitat.wa.us).

**Agency that prepared documents being adopted:** Klickitat County Planning Department.

**Description of documents (or portion) being adopted:**

EOZ FEIS. The EOZ FEIS is a programmatic environmental impact statement that was prepared to examine environmental impacts, alternatives, and mitigation measures for development of energy projects generally, including wind energy projects, at various locations within Klickitat County and under various permitting procedures. Based on the EOZ FEIS, Klickitat County adopted its Energy Overlay Zone ordinance, which designated areas of the County where wind energy projects could be permitted outright through an administrative process subject to specified development, use and construction standards. The Harvest Wind Wind Project is located within the designated EOZ area and proposes to incorporate the EOZ standards.

The adopted documents are supplemented by an environmental impact statement for the Project.

**If the documents being adopted have been challenged (WAC 197-11-630), please describe:**

The adequacy of the EOZ FEIS was challenged in 2005 in an appeal to the Klickitat County Board of County Commissioners. The County and the appellants reached a settlement before a decision on the merits, and the appellants withdrew their appeal.

The documents are available to be read during normal business hours at Klickitat County Planning Department, 228 West Main Street, Goldendale, WA or Goldendale Community Library, 131 West Burgen Street, Goldendale, WA 98620

We have identified and adopted these documents as being appropriate for this proposal after independent review. The documents meet our environmental review needs for the current proposal and will accompany the proposal to the decisionmaker.
