

Degree of Slope Estimator

Hold this line parallel to the ground

INSTRUCTIONS

1. Mount this sheet on a piece of cardboard or fiberboard.
2. Punch a hole through paper and cardboard at spot marked "Punch Hole Here".
3. Thread a 12 inch piece of string through the hole and tie a knot in one end of the string. (on back)
4. Tie a one inch washer, or some kind of weight, to the end of the string. (on front)
5. Hold the designated line parallel to the ground, sighting up slope along the edge of the cardboard.

If your eye level is 5 feet above ground, sight on a target 5 feet above ground.

6. The weighted string will indicate the steepness of slope.
7. Use the indicated value with the Zone 2 Defensible Space: Vegetation and Slope Matrix.
